**Commissioner of Patents and Trademarks**

The applicant's election of Figure 10 and claims 1,2, 4-11, 13-18 and 20 is not properly responsive with the restriction requirement of the last office action because none of the elected independent claims read of the elected Figure 10. Each independent claim requires a recess and in the disclosure the only recess is found when referring to Figure 9. It is noted that the scoring unit of Figure 10 is defined in the disclosure as supported on the pedestal and not as attached to the table. Correction is required by either electing a Figure on which the claims properly read or by amending the claims to read on the elected figure. The applicant has one (1) month to respond to a notice of a non-responsive amendment

jaa.
